Dear Admissions Team,

I am glad to write this letter to recommend Mr. Amir Abbas Khalili for your graduate program. An extraordinary student in one of my classes titled Hydraulic Structures in the first semester of 2022-23.

Mr. Khalili is an outstanding student and always has a significant hard-working attitude. He keeps being enthusiastic and energetic in class, usually joins class conversations, and is eager to learn more.

Moreover, he is smart and good at solving questions. Amir achieved remarkable performance among others and was one the few students who got 20 out of 20, indicating his effort and intelligence.

I recommend Mr. Khalili for your program. I am honestly sure about his potential as a great candidate and a good person. If you require further information please do not hesitate to reach out.

Sincerely yours,
Ladan Homayoon
