To Whom It May Concern,

It is my great pleasure to recommend Mr. Amir Abbas Khalili for admission to your graduate program. I have known him since Fall 2022 when he was a student in the Pavement Laboratory course, in which he achieved a perfect result: 20 out of 20.

As his professor, I found him to be an excellent student who is energetic and intelligent among his peers. Mr. Khalili consistently did a great job in completing the weekly homework flawlessly, and his hardworking attitude was remarkable. He also demonstrates a strong enthusiasm for learning, and his curiosity and critical thinking are evident.

Furthermore, he consistently demonstrated a sense of responsibility in the laboratory by keeping the working area clean and organized. I have to mention that Amir is a kind-hearted person who would often stay after class to assist me in the laboratory, showing attention to it.

I highly recommend Amir for graduate studies in your department, as I firmly believe he has the potential to become an exceptional and successful student. If you require any further information, please feel free to reach out.

Sincerely yours,

Mojtaba Khodadadi
